Is knowledge and awareness of dementia
care associated with attitudes towards
older people among student nurses?

LAURA BROWN

"Dissertation submitted for Master of Nursing Science,
School of Nursing, Midwifery and Physiotherapy,
Faculty of Medicine, Queens Medical Centre, University
of Nottingham"

"I declare that this dissertation is my own work"

Signed.....Date.....

Acknowledgements

Firstly I would like to thank my dissertation supervisor Dr Tony Arthur for all his patient advice and support over the past 18 months.

I would like to thank to say a really big thank you to all the student nurses who took the time to complete the questionnaire and participate in the study. Also to all the lecturers who allowed me access to their students.

Finally I would like to say a special thank you to all my family and close friends for their support and encouragement throughout the last four years.

List of Tables and Figures	VI
Abstract	1
1. Introduction	2
1.1 Rationale for the study	3-4
1.2 Background	5-6
1.3 Aims and objectives	6
2. Literature Review	7
2.1 Introduction	8
2.2 Dementia	8-14
2.2.1 The National Dementia Strategy	14
2.2.1.1 Improved Awareness	14-15
2.2.2 The nurses role in dementia	15-16
2.3 Ageism	16-20
2.2.1 Measuring ageism	20
2.4 – The relationship between ageism and dementia	21-22
2.5 – Summary	22-23
3. Methods	24
3.1 Introduction	25
3.2 Methodology	25-26
3.3 Research aims and study design	26-27
3.4 Setting	27
3.5 Participant selection and recruitment	27-28
3.6 Seeking access and consent	28
3.6.1 Seeking access	28
3.6.2 Consent	28-29
3.7 Method	29

3.8	Study instruments	29
3.8.1	Questionnaire layout	30
3.8.1.1	Section One – Demographic data	30
3.8.1.2	Section Two – Attitudes towards ageing	30-31
3.8.1.3	Section Three – Dementia awareness quiz	31
3.8.2	Question wording	32
3.8.3	Question Type	32
3.9	Validity and Reliability	32
3.9.1	Validity and Reliability	32-33
3.9.2	Pilot Study	33-34
3.10	Ethical Issues	34
3.10.1	Burden	34
3.10.2	Confidentiality	34-35
3.10.3	Ethical approval	35
3.11	Data analysis	35-36
3.12	Summary	36
4.	Results	37
4.1	Demographics	38
4.1.1	Response Rate	38
4.1.2	Description of sample	39-40
4.2	Dementia Awareness	41-45
4.2.1	Dementia awareness findings for further investigation	45-46
4.2.1.1	Is dementia part of the normal ageing process?	46
4.2.1.2	Is dementia a deadly disease?	47-48
4.3	Attitudes towards ageing	48-52
4.4	The relationship between attitudes towards ageing and dementia awareness	53
5.	Discussion	54
5.1	Dementia Awareness	55-57
5.1.1	Is dementia part of the normal ageing process?	57
5.1.2	The age of people affected by dementia	57-58
5.2	Attitudes towards ageing	58-60
5.3	The relationship between attitudes towards ageing and dementia awareness	60
5.4	Strengths and limitations of the study	61
5.4.1	Limitations	61-62
5.4.2	Strengths	62-63
6.	Conclusions	64
6.1	Conclusions	65-66

6.2 Recommendations for future research	66-67
6.3 Recommendations for future practice and training	67-68
6.4 The study's wider context	68-69
6.5 Critical reflection on the dissertation process	69-70
7. References	71-79
8. Appendices	80
Appendix One – Letter to course Director	81
Appendix Two – Questionnaire	83
Appendix Three – Ethical Approval	88

List of Tables and Figures

- Table 1.1:** Estimated prevalence (cases per 100 population) of dementia in the UK by age and dementia (%)
- Table 2.1:** Ten ways to ensure dementia sufferers personhood is strengthened, Kitwood 1997
- Table 2.2:** Key policy documents on the UK dementia services
- Table 4.1:** Potential and actual sample size and overall response rate of the questionnaire
- Table 4.2:** Frequency and percentage of the demographic information of the sample
- Figure 4.3:** Histogram to show the total dementia knowledge score out of 84 for each questionnaire completed
- Table 4.4:** Correct answers from the questionnaire and the percentage of people who answered specific questions correctly
- Table 4.5:** The mean dementia awareness score and its significance for varying groups of the sample
- Table 4.6:** Percentage and number of people who answered question six
- Table 4.7:** Percentage and number of people who answered question twelve
- Table 4.8:** The percentage of people who answered each number on the ageism scale
- Figure 4.9:** Bar chart to show overall attitudes towards ageing of each of descriptive pairs in descending order
- Figure 4.10:** Histogram to show the total ageism score out of 84 for each questionnaire completed
- Table 4.11:** The mean ageism score and its significance for varying groups of the sample
- Figure 4.12:** A scatter plot to show the relationship between total knowledge and total ageism scores
