Dear Dr Arthur

Ethics Reference No: G/07/2010  -  Please quote this number on all correspondence

Study Title: Uptake of influenza vaccine among student nurses: prevalence and predictive factors

Lead Investigator: Dr Tony Arthur, Senior Lecturer in Elder Care

Co Investigators: Charlotte Hunt, Student Nurse, School of Nursing, Midwifery and Physiotherapy.

Thank you for your letter dated 1st September 2010 responding to the issues raised by the Committee and enclosing revised version of:

- Volunteer Information sheet version 4, dated 01/09/2010
- Study proposal version 18180 dated 1/09/010

These have been reviewed and are satisfactory and the study is approved.

Approval is given on the understanding that the Conditions of Approval set out below are followed.

Conditions of Approval

You must follow the protocol agreed and any changes to the protocol will require prior Ethic’s Committee approval.

This study is approved for the period of active recruitment requested. The Committee also provides a further 5 year approval for any necessary work to be performed on the study which may arise in the process of publication and peer review.

You promptly inform the Chairman of the Ethic’s Committee of

(i) Deviations from or changes to the protocol which are made to eliminate immediate hazards to the research subjects.
(ii) Any changes that increase the risk to subjects and/or affect significantly the conduct of the research.

(iii) All adverse drug reactions that are both serious and unexpected.

(iv) New information that may affect adversely the safety of the subjects or the conduct of the study.

(v) The attached End of Project Progress Report is completed and returned when the study has finished.

Yours sincerely

Professor R C Spiller
Chairman, Nottingham University Medical School Research Ethics Committee
Project Title:
Ethics Ref No:

Section A

If your project has been delayed, terminated or will not start please complete question 1 only. If your project has finished, complete question 2 onwards

1. If your project has not started please complete the most appropriate option below:
   a.  Is planned to start on the following date: ………./………./…………….. (dd/mmm/yyyy)
       Project will never start due to:

       Project terminated due to:

       Other:

2. Project completion date: ………./………./…………….. (dd/mmm/yyyy) - i.e. date last piece of research data was collected

3. Please enter final subject/sample numbers collected or recruited:
   a.  Volunteers screened: …………. Recruited: …………. Data used on: ………. 
4. If the project has ended, are you intending to destroy any human tissue obtained as a result of the project?  Yes/No

If no, please note you will be required by law to inform the person designate in your department to ensure that you comply with standard operating procedures in your department relating to the Human Tissue Act.

5. Please list your main findings from the study:

6. Please identify address where study will be archived:

7. Please state who is the custodian of the data:
   a. Name:
   b. Post Held:
   c. Address and Department:
   d. Contact details:
      ........................................................................................................................................
Please note that it is the responsibility of the Chief/Principal Investigator to ensure that all study data is archived in a secure location with restricted access to authorised personnel only and that data is held in accordance with the Data Protection Act 1998 and where appropriate with the Clinical Trials Regulations 2004. It is not good practice to store data at a personnel address or on a personal computer; it is recommended that all data be stored in a secure environment within an organisational establishment under the care of an appointed custodian.

Signature Section

I confirm that the information contained in this report is correct
