	Explain why the transcripts of the teacher interviews were shared with Gallery team members but not vice versa	p. 32  pp. 67-68	Inserted a sentence emphasising the expectation that the CDP inform practice  Inserted two paragraphs explaining why transcripts were shared with the gallery education team and not teachers.
	Explain where you also exercised your own judgement about what should and should not be included (e.g. the reference to the feedback session on page 57).	p.58  p. 67	I have added an explanation as to why I have not included the data from the feedback session in my data.  I have also added a paragraph about my decisions to include data or not in the ethics section.
2. Black Lives Matter	Explain the reasons why this became less prominent beyond the introduction	pp.23-24  p. 297	I have inserted five sentences explaining that it does not form an important part of the thesis, but I still found it necessary to include it as context.  I have added a paragraph in the conclusion to address the ongoing implications of the gallery education team's work in this area for other cultural organisations.
3. Conclusion	Insert an overarching recommendation in Chapter 12 which speaks to the importance of cultural organisations for schools and how this research illuminates how galleries (including and beyond TATE) can increase their reach through authentic collaborative practice.	pp.294-296	Have added sentences and paragraphs to address the point.  My supervisor suggested not writing it as a recommendation.
